CAREER OBJECTIVE:

Aspiring Data Scientist & Machine Learning Engineer with 3+ years of experience delivering end-to-end AI/ML solutions across pharmaceutical, healthcare, and technology domains. Skilled in deep learning, Generative AI, and NLP with strong expertise in production-grade deployments and MLOps. Seeking to leverage expertise in LLMs, cloud-native AI, and full lifecycle model management to build scalable AI-driven systems.

PROFILE SUMMARY:

- 3+ years of experience in **Data Science, ML/AI model development, and deployment.**
- Proficient in **Python** and libraries: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Keras, OpenCV, NLTK.
- Hands-on experience in **Generative AI & LLMs:** prompt engineering, fine-tuning transformer models, and deploying LLM-based solutions.
- Exposure to **Agentic LLMs** with workflow orchestration using **LangChain/LangGraph** and AutoGPT-like flows.
- Skilled in **NLP techniques** (text classification, embeddings, transformers, semantic search).
- Experience with **Cloud Platforms:** Google Cloud Platform (Compute Engine, Airflow, Vertex AI, Cloud Build/Cloud Run, Pub/Sub); familiarity with AWS.
- Proficient in **MLOps & Production Workflows:** CI/CD, MLflow, model monitoring, containerized deployments (**Docker**).
- Strong knowledge of **Supervised ML algorithms:** XGBoost, Random Forest, SVM, Decision Trees, Naive Bayes, Transformers.
- Expertise in **Unsupervised Learning** techniques: Clustering (K-Means, DBSCAN, Hierarchical), Dimensionality Reduction (PCA).
- Experience in **Deep Learning algorithm:** Artificial Neural Network (ANN), Convolutional Neural Network (CNN), Recurrent Neural Network (RNN).
- Experience deploying **AI APIs** using Flask/FastAPI and integrating with larger systems.
- Proficient in **Structured Query Language (SQL)** for writing optimized Database queries (PostgreSQL, MySQL, BigQuery).
- **Pharmaceutical and Life Science** Domain Expertise (Chromatography, **DICOM**, Molecular Biology, Bio-Informatics).
- **Agile methodologies** and Scaled Agile Framework (SAFe) for project delivery.

ORGANIZATIONAL EXPERIENCES:

1. **Thermo Fisher Scientific India Pvt. Ltd, Bangalore**
Designation: Technical Application Specialist (From 6th July 2023 to Present)
2. **Spinco Biotech Pvt. Ltd. (Shimadzu Asia Pacific)**
Designation: Executive Application Support (From 1st Sep 2022 to 1st July 2023)
3. **Wipro Limited, Bangalore**
Designation: Scientist (From 1st Jul 2021 to 30th Aug 2022)
4. **Edward Food Research and Analysis Centre Pvt. Ltd., Kolkata**
Designation: Jr. Chemist (From 1st October 2019 to 30th June 2021)
5. **Alkem Laboratories Pvt. Ltd., Sikkim**
Designation: QC Officer (From 2nd August 2018 to 15th September 2019)

SELECTED PROJECTS:

1. Automated Machine Learning (AutoML):

Developed and deployed an AutoML web application on Google Cloud Run that enables users to upload CSV datasets, select target variables, and automatically train classification or regression models with built-in preprocessing, feature engineering, and hyperparameter tuning. Integrated Google Cloud Storage for dataset/model management and implemented automated evaluation with HTML/PDF reporting.

GitHub: [AutoML](#) | Portfolio: <https://portfolioofdebojyoti.in>.

2. MLOps (End-to-End)

Designed and deployed an end-to-end MLOps workflow using Google Cloud tools. Leveraged a flight price dataset to train and serve predictive models via Vertex AI. Used Docker for containerization. Implemented CI/CD with Cloud Build triggers linked to a GitHub repository for automated pipeline updates. Developed a batch inference pipeline that stores predictions in a GCS bucket, demonstrating scalable, production-grade ML deployment.

GitHub: [MLOps](#)

3. Image Classification

The classification of flowers based on their images is a practical and visually appealing application of deep learning in the domain of computer vision. This project presents the development of a flower identification system using a pre-trained ResNet50 convolutional neural network model, fine-tuned on a flower dataset.

GitHub: [Image Classification](#) | Portfolio: <https://portfolioofdebojyoti.in>.

EDUCATIONAL QUALIFICATIONS:

- **Bachelor of Pharmacy (B. Pharm)** – Maulana Abul Kalam Azad University of Technology (2014-18) | YGPA: 7.94
- **Higher Secondary (Class 12)** – Saidabad Manindra Chandra Vidhyapith | WBCHSE (2013) | 69.20%
- **Secondary (Class 10)** – Saidabad Manindra Chandra Vidhyapith | WBBSE (2011) | 82.50%

CORE COMPETENCIES:

- **Languages & Libraries:** Python, SQL, Pandas, NumPy, SciPy, Scikit-learn, TensorFlow, PyTorch, Keras, OpenCV.
- **ML/AI Techniques:** NLP, Generative AI, Transformers, LLM fine-tuning, Computer Vision, Supervised/Unsupervised ML, Hyperparameter Tuning.
- **MLOps & Deployment:** Flask/FastAPI, REST APIs, Docker, MLflow, CI/CD with GitHub Actions.
- **Cloud Platforms:** Google Cloud Platform (Compute Engine, Airflow, Vertex AI, Pub/Sub, Storage), AWS basics.
- **Visualization & Tools:** PowerBI (DAX), Matplotlib, Seaborn.
- **Other:** Agile/Scrum, ISO Standards, Six Sigma Green Belt.

CERTIFICATIONS:

- 100 Days of Code – The Complete Python Pro Bootcamp from Udemy
- SQL Essential Training from NASBA
- Python Basics from HackerRank
- SQL Basics from HackerRank
- Certification course on Lean Six Sigma Green Belt Certification (IASSC) from Simplilearn.
- Certification course on Agile Scrum Foundation from Simplilearn.
- Certification course on Agile Methodology from GreatLearning.

PROFESSIONAL STRENGTH:

Team Player | Time Management | Motivator | Go-getter
